-dotnetfs40 I think we are good to go. Information Articles Competitions and Contexts Solo/Group exhibition in the middle of april 2014. I'll only show 10-15 of the 150 products I made. You can bid on each of them. The amount is not that big, but the nice thing about it is, that you can bid on it and win it. I put the address for the Bids on my website. I have been nominated for the 2015 Outstanding Disability Producer Award, and if i win i can get a scholarship to travel to the World Disability Arts and Film Festival in Sofia, Bulgaria. The road to the 2015 Outstanding Disability Producer Award will take me all over the USA, Finland, France, Spain, Portugal, UK, Germany and Australia. Here is the schedule: 1.- 29 august till 15 september 2.- 15 september till 15 november 3.- 15 november till 15 december The application deadline is 15th september. If you are a producer of art for disabled people you might be interested in my career, please visit my website and check out my list of productions.Q: How to add multiple row to datagrid using databind I'm new in visual studio and I want to add multiple row to the datagrid, I have tried using this code but it didn't work: private void newInput_Click(object sender, EventArgs e) { string TInput = "gotoinput"; string DInput = "datainput"; //adding of the input and the data InputTemplate newInput = new InputTemplate(TInput, DInput); DataTemplate newData = new DataTemplate(TInput, DInput); AddInput.Items.Add(newInput); AddInput.Items.Add(newData); } I tried to add this code DataTemplate template = new DataTemplate(TInput, DInput); 82157476af
